ANTOINE DAUTRY

FULLSTACK DEVELOPPER

FREELANCE

PROFIL

After graduating in 2019, I started as a Symfony developer and then switched to a fullstack developer with Spring Boot and Angular technologies. Passionate about my work, my goal is to become an expert developer or lead dev within a few years.

TECHNOLOGIES

Frameworks: Angular, Spring boot, Symfony
Databases: MySQL, PostgreSQL, MongoDB
Softwares: IntelliJ IDEA, PHP Storm, JIRA
CI/CD : Openshift, Gitlab CI, Jenkins
Project management: AGILE, SCRUM, LEAN
